

Lego Prayers

Legos can be used as a fun way to pray and who to pray for!

Here are some ideas to do at home:

- Hold your Lego brick. Pray for yourself. Thank God for all ways God has made you special.
- Feel the hardness of the Lego and think about people who are going through hard times. Ask God to help them.
- Look at your Lego and see how many bumps it has. Think of that number of things you would like to say thank you to God for and say Thank you prayers.
- Look at the color of the Lego and say thank you to God for something that is that color.
- Find someone who has the same color Lego as you. You might want to make a small group of people with the same color. Say thank you to God for families. Ask God to bless your family and help you as you live together. Ask God to help you to show your love to the people in your family.
- Find someone who has a different Lego than you- it could be a different size or color. Thank God for making everyone different and giving us all different gifts.
- Build a tower with everyone's bricks. Thank God for the church and community we live in. Pray that God will help us to include others and to help people know that they are loved and valued.

May talking to God become a habit in your home! God enjoys hearing from us!
Blessings to you from Roseville Lutheran Church 2021
